

Vaccination Choices // 12 CE

Course Description

This very comprehensive program on vaccination is designed to provide chiropractors and the public with the data on the risks and benefits of vaccinations. The first 4 hours of the program are open to the public and feature extensive information designed especially for parents.

Parents and their chiropractors are faced with difficult decisions regarding whether or not to vaccinate their children. Balancing the very real desire to eliminate or reduce the risk from a wide variety of diseases against the possible side effects of vaccination is one of the most difficult decisions a new parent has to make.

This program will discuss vaccinations for:

Chicken Pox	Meningitis	Rubella	Hepatitis A
Influenza	Polio	Pertussis	Hepatitis B
Measles	Diphtheria	Rotavirus	HPV
Mumps	Tetanus	Pneumonia	Haemophilus Influenza type b

Other important topics discussed will include how vaccines work, vaccine ingredients, individual rights regarding vaccination, how to keep your child healthy with chiropractic care, alternative vaccination schedules and much more.

About the Speaker

Mark Edinger, DC, DABCO, is a graduate of the National College of Chiropractic and is Board Certified in Orthopedics. Dr. Edinger spent over a year researching the latest information on vaccination. In addition to Vaccination, he also lectures on Rehabilitation, Outcomes Assessment, and Musculoskeletal Pain Syndromes. Dr. Edinger was the lead author in "Subjective and Objective Outcomes Assessments of Low Back Syndromes" in the Low Back Pain Syndromes textbook. He currently maintains a full time private practice in Ripon, WI.
